<u>How to Download</u>

1. Click the download link.
2. Save the download anywhere on your hard drive, (e.g., the desktop)
3. Go to the location on your hard drive where you saved the download and unzip the folder.
    *   If you are using the Windows XP Operating System, right click on the folder and select "Extract all…"
    *   If you do not have the Windows XP Operating System, use WinZip, PK Zip or any other comparable utility.

     Unless you unzip these files, they will not function correctly.
4. After you unzip the download, open the folder on your hard drive called "NRC Downloadable Folder" (this folder's icon does not have the zipper across it).
5. Use the Excel file or open either the NUREG-1800 or the NUREG-1801 folder and open the desired file.
6. Do not move the Word files outside of the folders in which they are provided. Relocating a Word file outside of its original folder will cause any links to no longer work.
